Established in 2013, Suzhou Brotherpacking Plastic Co., Ltd. is a professional manufacturer of plastic bottles and jars for daily chemical products, serving multiple sectors including household cleaning, personal care, cosmetics, food, and pharmaceuticals. With 25 years of experience in the plastic packaging industry, we have developed a complete R&D and production system, providing end-to-end plastic bottle production solutions, including mold design, product development, injection molding and blow molding, screen printing and labeling, and final assembly. The company is equipped with 100 professional production lines, covering an area of 20,000 square meters, with a daily output of 300,000 plastic bottles and an annual production of 250 molds for various multi-cavity caps and cream jars, meeting diverse plastic packaging needs of high-end daily chemical and skincare brands.

Our products have obtained 31 national authorized patents

and meet international ISO 9001 and QS certification requirements. With superior quality and excellent service, we have established partnerships with 20 leading daily chemical brands and have exported to 15 countries in Southeast Asia, Europe, and America.

Personal care products packaging

100ml cylindrical PE bottle

The 100ml cylindrical PE bottle is a practical packaging solution crafted from food-grade PE raw materials, ensuring safety and compliance for daily use. Its design features a smooth, round body that not only feels comfortable to hold but also minimizes dust

accumulation, making it easy to clean—ideal for maintaining hygiene in daily chemical settings.

Functionally, the bottle excels in sealing performance: its precision-engineered cap forms an airtight barrier, preventing leaks and preserving the freshness of contents like shampoo or shower gel. This sealing capability also enhances its moisture-proof property, protecting formulations from humidity-induced degradation. Built with durability in mind, the bottle is drop-resistant; its PE material absorbs impact, reducing the risk of breakage during handling or transportation.

230ml pump head PE bottle

This 230ml PE bottle with a pump head is a perfect choice for both aesthetics and practicality. Made from safe and durable PE material, the bottle has undergone rigorous testing and is drop-resistant and leak-proof. It's safe to use with all types of detergents and conditioners, and resists deformation and aging over time.

The bottle's elegant, specially designed pattern elevates the look of standard packaging, blending seamlessly into any space, whether displayed on a bathroom sink or in a kitchen corner. The pump head provides smooth operation and even, controlled liquid delivery, minimizing liquid waste and direct hand contact, ensuring a clean and hygienic experience.
